PROJECTS

Portfolio

Online portfolio website, a representation of work I have created, as well as my skills and experiences. Link - <https://maniknaidu-portfolio.vercel.app/>

Weather App

Weather-app with geolocation and search engine to get weather reports of any city in the world. Link - <https://weather-app-manik.vercel.app/>

Tic-Tac-Toe

Developed a dynamic Tic-Tac-Toe game using JavaScript and React. Link - <https://tic-tac-toe-manik-1stgame.vercel.app/>

Snake Game

Developed a classic Snake game using JavaScript. Link - <https://cobra-1-manik2ndgame.vercel.app/>

News App

Fully functional news web app provides latest news by fetching "News-API" api. App offers various news categories, such as sports, science, fashion and politics.

Food App

Developed a React project integrating Swiggy API to fetch and display restaurant in a specific location, while also implementing a separate API to showcase the menus of selected restaurants.
